Education

Bachelor of Computer Science, Honours Computer Science with Business Option, University of Waterloo, Waterloo, ON Sept. 2009 – Aug. 2013

Work Experience

Front End Software Developer, Olson Canada Oct. 2015 - present

- Leading front end (Angular) development on Momentum, an SMS messaging campaign platform
- Building front end components for Boston Pizza website and made necessary modifications after components were integrated into Adobe Experience Manager by an offshore team
- Working on a variety of websites/microsites for clients such as Hisense, OLG, Nestle, and Aldo

Front End Developer, Soft Gravity Inc. Nov. 2013 – Sept. 2015

- Led front end development on web projects for clients including the Toronto 2015 Pan American Games and Hyundai Canada
- Built a cloud-based web development platform with a small team of other developers, creating a Marionette-driven front end to the application; contributed to design as well
- Led development of iOS apps using the Appcelerator framework, including a major update to Soft Gravity's flagship mobile app Mobile Briefcase; designed the UX for the update as well

Website Developer, Conceptual Pathways Inc. Mar. 2009 – Sept. 2012 (*summers only*)

- Led development for several large commercial websites, including front-end work and customization of the company's proprietary content management system
- Made updates to base version of the CMS and lead the creation of new template components, including the wireframing, design and development on a shopping cart

Technical Support Specialist, D2L May 2010 – Aug. 2010

- Restructured an ASP.NET web application to help the support team take note of the highest priority support issues; restructuring focused on creating a more user-friendly interface and improving runtime efficiency
- Responded to the clients' issues, offering solutions and ensuring support tickets were being taken care of on schedule

Freelance Website Designer/Developer, Sam Mason Jan. 2006 – Aug. 2013

- Operated my own small business designing and developing websites for several clients; provided them with consultations, cost estimates, mockups, and prepared invoices
